

INFORMATION BULLETIN

Point Lisas Nitrogen Limited remains committed to protecting the health, safety and well-being of our employees, our fence line communities and all persons visiting our facility. Your health and safety is of paramount importance to us.

As we continue to monitor updates on the Coronavirus (COVID-19) and adhere to the guidelines established by the Center for Disease Control (CDC), the World Health Organization (WHO) and the Ministry of Health, the following measures have been implemented at our site to ensure the safety of all:

- PLNL has implemented a work rotation system effective Tuesday 17th March 2020. Only critical personnel will be allowed on site.
- PLNL has established a Triage area adjacent to our security booth where a nurse will take the temperature of all persons wishing to enter our facility. Persons exhibiting flu-like symptoms will **not** be permitted to enter our premises. Please be responsible in this regard.
- Visitors will be required to complete a COVID-19 questionnaire.
- Persons who recently travelled to countries restricted by the Government of Trinidad & Tobago will be required to sign a disclosure form.
- A robust sanitization system has been implemented across our facility to maintain a safe and healthy environment.

We are a responsible corporate citizen and assure you that the efficiency of our operations will not be adversely affected by the measures put in place.

We do apologize for any inconvenience caused but this has become necessary to safeguard our staff and the wider population visiting our establishment.

Fitzroy Harewood
President
